**Products Used:** Gold Metallic

**Contact:** Todd Cummings

**Title:** Co-Owner

**Phone:** 920-426-1063

**Description:** Paint applied on a 100-year old stamped tin ceiling.

### Project Details

The Crescent Bronze Powder Company was recommended by Davis Painting of Oshkosh, WI, to supply the gold metallic paint for Oblios Lounge's expansion project. Nearly doubling its size, Oblios purchased the available space next door to create room for a variety of games. The existing tin tiles required a delicate spray and roller application.

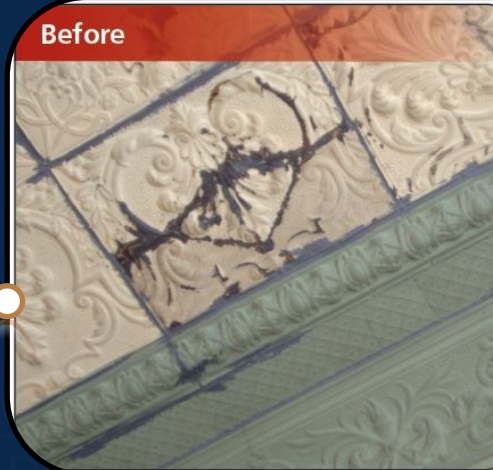

Oblios Lounge opened in 1979 and is owned by Todd Cummings and Mark Schultz. The building was originally built by the Schlitz Brewery Co. in 1884 and was used as a sample house. In the early 1930s, a 40-footlong mahogany bar was installed and is still in use today.

The complete renovation of Oblios Lounge took over 20 years to complete, and Crescent Bronze provided its real metallic paint for several different projects. The ceiling is noted as one of the highlights of Oblios, and it receives a great deal of attention from customers.

"The look of Crescent Bronze paint is outstanding! It has a shine that is very unique and really stands out. We were looking for a high-end look, and we got exactly what we wanted."

- Todd Cummings (Co-Owner of Oblios Lounge)
