

# Brilliance and innovation since 1922.

Crescent Bronze delivers the industry's largest selection of high-quality metallic colors. Our metallics are made with real copper, copper/zinc alloys, aluminum, or blends of these metallic particles. Unlike competitive products that claim to be metallic, Crescent Bronze metallics are pure metal. We also offer pearlescents made from mica particles which have a distinctive metallic-like effect. Of course, we'd be happy to help you with custom color formulations or unique color matching requirements. Visit [CrescentBronze.com](http://CrescentBronze.com) to see our extensive selection of metallic, pearlescent and specialty effect powders, pastes and paints.

**Metallic Powders.**  
Infinite color combinations.

- Diverse selection of specialty blends
- Colors and micron size blends can create infinite color combinations
- Higher opacity than pearlescent counterparts
- Particles range in size from 2-70 microns
- Orders can range from 1-1,000+ lbs.

**Metallic Pastes.**  
Eliminate hazards, minimize contamination.

- Pastes can be made from any metallic pigment
- Versatile alternative to powders
- Simplify manufacturing processes
- Available in a variety of solvent bases

**Pearlescents.**  
Metallic-effect powders and pastes.

- Made from mica particles coated with titanium dioxide or iron oxide
- Exhibit a translucent, "pearlized" appearance
- Highly reflective with lower opacity
- Weather resistant characteristics are ideal for exterior applications
- Particles range from 5-60 microns

## Unrivaled beauty. Diverse applications.

- |                            |                        |                               |
|----------------------------|------------------------|-------------------------------|
| Burial Vaults              | Exteriors of Buildings | Mannequin Production          |
| Cabinetry & Woodworking    | Faux Finishes          | Plastic Molding & Fabrication |
| Coatings: Powder & Liquid* | Furniture              | Roofs                         |
| Walls and Ceilings         | Flooring               | Statues & Sculptures          |
|                            | Ink                    | Window Frames                 |
|                            | Lighting               |                               |

**\*Note:** Crescent Bronze metallics are not ready-to-use "powder coatings." Crescent Bronze metallics require a wet carrier or a clear vehicle.

Industry-leading brands worldwide rely on Crescent Bronze metallics:

- Aqua Nueva
- Bellagio Resort & Casino
- Century 21
- Disney Parks and Travel
- Don Frost Sculptures
- Doric Burial Vaults
- Fontainebleau Las Vegas
- Gibson Guitars
- Green Bay Packers Lambeau Field
- Hard Rock Hotel & Casino
- LA Rams SoFi Stadium
- Marcus Theatres
- Maya Romanoff Wallcoverings
- Minnesota Vikings U.S. Bank Stadium
- MGM Entertainment & Casinos
- Nordstrom
- Orlandi Statuary
- Princess Cruises
- PF Chang's
- Randolph-Macon Academy
- Schonbek
- Starbucks
- Swarovski
- The Fillmore Detroit
- The Mansion at MGM Grand
- The Venetian Las Vegas
- Universal Studios
- Victoria's Secret
